

# Program Specification

Editing a Simple Program

## 1 PROGRAM DESCRIPTION

---

Use the *EditJAVA.java* file provided on the course website. Edit the file to display your name correctly. Use the comments provided in the file to help you do this.

## 2 WHAT TO TURN IN

---

- Your modified code
- A screenshot of the output in the console with the correct output
- Answer the questions below

## 3 QUESTIONS

---

- What happens if you do not change the minus sign as indicated in the comments?
- What error message does the compiler print to the console when you try to compile the program?
