

Problem Specification

Vowel or Consonant?

1 PROBLEM DESCRIPTION

Write code that uses a switch statement to determine whether a character is a vowel or consonant.

2 INPUT DESCRIPTION

The user shall input a single character in the console. Include an appropriate prompt for the user.

3 OUTPUT DESCRIPTION

Your code shall print a line of text such as:

The letter i is a vowel

Replace the character and classification as appropriate to your unique test cases.

4 WHAT TO TURN IN

- Your code
- Documented test cases
