

Program Specification

Cisco Message File Reader

1 PROGRAM DESCRIPTION

Write a program that reads the provided log file and sorts the messages based on severity.

2 INPUT DESCRIPTION

The log will be a CSV file with each line representing a single message. The file has been corrupted. Your program should handle the corruption gracefully and continue execution.

3 OUTPUT DESCRIPTION

Print the sorted messages to the console.

4 WHAT TO TURN IN

- Your code
- A copy of the console output
